

The Region of BC's Best

JOB POSTING

Senior Systems Administrator

COMPETITION NO:	2020-031
TERMS:	Permanent Full-Time
START DATE:	ASAP
HOURS OF WORK:	35 hours per week
APPLICATION DEADLINE:	4:00 pm, August 28, 2020

Encompassing an unparalleled geographic region in the heart of British Columbia, the Thompson-Nicola Regional District (TNRD) offers the best of both worlds. Urban life within vibrant communities and outlying rural regions that showcase the region's beauty - pristine but rugged mountains, rolling grasslands, lush evergreen forests, and both historical and modern areas, all within 45,000 square kilometres. Headquartered in the City of Kamloops, the TNRD provides a wide range of local government services to the population of 130,000 living within its 11 diverse municipalities and 10 electoral areas.

The Role:

This position formally reports to the Manager of Technology Services; The Senior Systems Administrator will act as a group leader, including coordinating and communicating workloads, priorities, and recommending training. The Administrator will be responsible for the day to day monitoring and operations of all corporate networks, and will be required to plan, design, build, manage and support all aspects of complex and diverse network infrastructure, as well as the day to day operating of security infrastructure such as firewalls and intrusion detection infrastructure. This work is performed under minimum supervision and requires the exercise of independence of judgement and action in the technical, operational and problem-solving aspects of the work and the ability to assess business requirements for client departments.

The Senior Systems Administrator:

- Is the technical lead for all network and system initiatives.
- Develops the overall network architecture design and ensures infrastructure is current, assesses near and long term network capacity needs, and performs capacity planning and disaster recovery.
- Is responsible for the overall networking and systems performance, monitoring, maintenance, support, and optimization; performs advanced network duties and functions.
- Is responsible for the security planning, configuration and administration of LAN, WAN, Firewalls and VPN's
- Creates and maintains documentation as it relates to the network, including network mapping, processes, and service records.
- Supports staff in maintaining corporate voice systems, which include VOIP, PBX, and IVR systems.
- Will periodically support staff by completing helpdesk tickets to maintain relations and communications with staff, and ensure the helpdesk system is proficient, tracking results, and resolving problems.
- Evaluates new technologies and provides recommendations and direction on technical solutions.
- Communicates with services providers, vendors, and contractors in the resolution of complex issues, quoting and purchasing equipment, and assists the department manager with the administration of contracts.
- Follows proper change management processes and post-implementation review of modifications and enhancements.

MUNICIPALITIES: Ashcroft, Barriere, Cache Creek, Chase, Clearwater, Clinton, Kamloops, Logan Lake, Lytton, Merritt, Sun Peaks
ELECTORAL AREAS: "A" "B" "E" "I" "J" "L" "M" "N" "O" "P"

- Will be required to work non-standard hours to implement changes
- Perform other related duties may be assigned from time to time

Required Education and Experience

- Post-secondary degree in Computer Systems or an IT related discipline or equivalent combination of education, training, and experience
- 7+ years' experience in designing, supporting, and maintaining complex network environments
- Experience performing Helpdesk functions including providing telephone, remote or onsite support to end-users
- Strong knowledge of Routing Protocols.
- Strong knowledge of Cisco and HP, Routers, Switches, Firewall, and VPN appliances, IP phones, VOIP, and telephony and Cisco Call Manager communication system.
- Strong in Linux server systems (apache, bind, postfix, firewalls)
- Working knowledge of storage systems, NetApp.

Required Skills and Abilities

- Ability to investigate and resolve operating system and network hardware and related component problems as related to the work performed
- Demonstrated ability to Investigate, troubleshoot, and resolve technical issues logically
- Ability to establish and maintain effective working relationships with staff and external contacts
- Ability to prepare and present technical presentations both orally and in writing
- Ability to maintain the confidentiality of data, and work with limited supervision.
- Demonstrated business acumen
- The candidate must have a valid BC Class 5 Driver's License.

Qualifications that would be considered an asset:

- Experience in Library ILS systems an asset.
- Preference will be given to candidates with professional certifications in networking, Microsoft, Linux, and security
- ITIL training would be an asset.

This is a non-union position, with a competitive compensation package being offered.

Please email your application to humanresources@tnrd.ca by **4:00 p.m. on August 28, 2020**, quoting **Competition #2020-031**.

Applications must include a **cover letter and a resume** outlining your qualifications and experience. This position requires a Criminal Record Check and completion of a driver's abstract.

Thank you for considering the Thompson-Nicola Regional District as a place to share your talents!

*While we appreciate the interest of all applicants,
only those candidates under consideration will be contacted.*
