

Date Received: _____

Complete this form ONLY if this is a DEMOLITION of an ENTIRE STRUCTURE.

NOTE: DISPOSAL FEES IN EFFECT

ORIGIN OF WASTE – SITE INFORMATION

To be completed by or for the OWNER of the structure(s) from which the demolition material originates.

Location of Building to be demolished (civic address)

BUILDING TYPE: Residential Commercial/Industrial Other – specify: _____

Approximate age of structure(s)

Approximate square footage & floors

City of Merritt Demolition Permit

The City of Merritt SHOULD have received and authorized the demolition of the structure prior to demolition commencing. NOTE that this may be a requirement even when the structure has been lost to flood or other natural disaster and will most likely be a requirement before rebuilding on the property. Please provide Demolition Permit Number and start of work date:

City of Merritt Demolition Permit #

Demolition START Date

Hazardous Waste

The TNRD requires ALL originators of Demolition, Renovation & Construction waste to complete an “**ASBESTOS DECLARATION AND ACKNOWLEDGEMENT FORM**”. This form can be found at any TNRD Eco-Depot or at: <https://www.tnrd.ca/services/garbage-recycling/asbestos>.

ASBESTOS DECLARATION AND ACKNOWLEDGEMENT FORM Complete

ALL other hazardous waste is to also be removed from the building structure prior to demolition. Check ALL items that were removed:

Fridge/Freezers Wall Heater/Thermostats Fire Alarms Under Cupboard Contents

SORT, SEPARATE & SAVE!

Understanding Waste Management

Demolitions create a great deal of waste. Understanding where these materials will go and the cost of disposal may be important in determining how demolitions can proceed. The tipping fee costs for some types of Demolition, Renovation & Construction (DRC) materials when separated are much lower than when mixed.

Material Type – MIXED / Unsorted	Fee
DRC	\$160.00 per metric tonne
Asbestos Containing Material *applies to any pre-1990 untested select DRC materials, see Asbestos Declaration Form	\$230.00 per metric tonne
Refuse	\$80.00 per metric tonne

Material Type – Source SEPARATED	Fee
Asphalt Shingles	\$100.00 per metric tonne
Concrete & Asphalt	\$20.00 per metric tonne
Wood Waste	\$100.00 per metric tonne
Metal (includes Ducting and Appliances)	FREE

Estimated tipping fee for a full house/mobile home demolition ranges from \$2,500 - \$20,000 depending on the size and age of the structure.

NON Hazardous Materials Checklist:

Pre-Demolition be sure to remove:

- Loose Garbage
 Reusable Fixtures
 Electronic Waste
 Metal Appliances
