SAVONA COMMUNITY WATER SYSTEM NEWS:

FALL 2022

The High Lift Pump #2 was rebuilt and installed earlier this year for the Savona Community Water System.

A new Automatic Transfer Switch (ATS) has been installed as of September 2022. The ATS upgrade will allow the TNRD to connect a

portable generator to the system in the event of a long-term power outage, ensuring that customers will continue to be provided efficient water service.

The automatic flushing unit will also aid in reducing the precipitated compounds within

the dead end lines. New Roof Hatches allow for efficient removal of vertical turbine pumps on dead-end lines. The project cost of \$39,000 for these upgrades has been funded by Canada Community Building Fund (formerly known as the Gas Tax Fund).
